Rubbish and Recycling – an environmental study

Geography

Autumn 2 Year 4

Sticky Knowledge

Using the UK map can you locate Blackburn, Carlisle, the counties of Yorkshire?

What geographical knowledge could you use to compare London, Manchester, Carlisle?

You can compare population, human feature and physical features including the types of land use.

Where would you find human and physical features typically?

Human features are mainly found in built up city areas like London, Manchester and Liverpool. When moving more towards Cumbria and Yorkshire you will find more features that are physical.

How has human/physical geography effected the creation London as the trade capital of the UK?

London is a major port and trade plays a major role in the growth of the UK economy. By using River Thames to move trade in and out of London has progressed into a modern London expanding building, roads and transport.
