

# Robots

DT

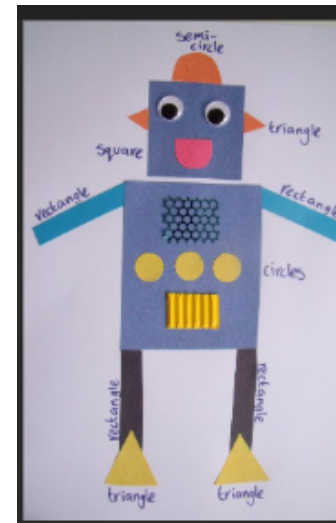

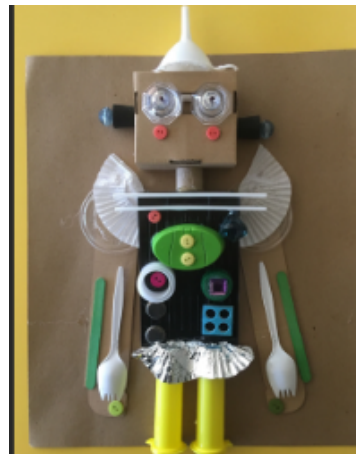

## Year 1 Summer 2

### Key Vocabulary

<b>design</b>	To make draw or write plans for something
<b>construction</b>	to use materials to create a building or object.
<b>robot</b>	A robot is a machine that does tasks without the help of a person. Many people think of robots as machines that look and act like people. Most robots, though, do not look like people. And robots do only what a person has built them to do
<b>fastenings</b>	to attach objects together using paper clips or split pins.
<b>sketch</b>	to draw your design
<b>annotate</b>	to add labels to your design

What do you think these Robots are used for?

Some design Ideas  
Which ones do you like and why?
