## Spring Term 1 – The Big Bird Watch!

Create a bird feeder to help birds find food.

Go into your garden, the park, or look out of a window.  
How many birds can you see?

Using natural or safe materials can you build a nest big enough for a bird?  
Think about what makes it soft, strong, and safe.

Go outside or open the window. What sounds can you hear? Can you:

- Copy a bird sound?
- Clap or tap the rhythm of a bird's call?

Draw a picture of someone dressed for a cold winter day.  
What will they need to wear?

Practise writing your name.  
You could do this in shaving foam, flour or with a pencil.

Some animals live in cold places around the world.

Draw a picture of an animal that lives in a cold place. Find out a fact to share with the class about your animal.

Design a scarf. You could draw it, paint it or even use other materials to make a collage.

Go on a winter walk with a grown-up and look around to see the things that have changed.
