

## **Statement of Intent**

At Cedars Primary School, we teach the modern foreign language of French. It is our intent that learners of all abilities access interactive and engaging French lessons. We use Cave Languages Scheme of Work to teach and deliver quality French lessons. Our aim is to ensure that listening, speaking, reading, writing and grammar are incorporated into each lesson. In addition, acquiring a new language provides an opening to learning about other cultures and deepens understanding of the world. We strive to provide our pupils with language learning strategies that can be built upon in their future educational journey should they choose to study and work in other countries or to begin studying a different language.
