

Year 3 Spring 1

Principles, Tactics, Attacking and Defending

- Understand effective space and why this is important in small-sided games.
- Perform movements in space individually or as a team.
- Evade, escape, dodge or get away from defenders most of the time.
- Outwit their opponent maximising space in pairs or small-sided games.
- Attack space with an object or piece of equipment individually or as a team.
- Defend space with an object or piece of equipment individually or as a team.
- Mark an opponent preventing them from scoring goals or taking part.
- Communicate with others whilst attacking and defending individually or as a team.
- Take part in competitive games confidently alone and with others.
- Use a broader range of skills/tactics in games and/or competitive situations.
- Understand the basic principles of attacking and defending.
- Mark an opponent preventing them from scoring goals or taking part.
