

Year 3 Spring 2

Principles, Tactics, Attacking and Defending

- Understand the basic principles of moving using equipment.
- Successfully dribble a ball around using effective space.
- Perform several successful passes and traps with a teammate.
- Show good accuracy in passes to teammates.
- Use a variety of passes to keep possession away from opposing teams.
- Shield a ball from a defender to protect it from being tackled.
- Use their body to protect a space from an opponent.
- Successfully defend a space either as an individual/group/team.
- Mark an opponent closely to prevent them taking part.
- Use a variety of passes to keep possession away from opposing teams.
- Use effective decision-making skills to keep the ball away from defenders.

The children will each be given a bib which must be tucked into their side. The aim of the game is to protect that bib but at the same time try to steal the other gladiator's bib.

Children dribble their ball using their hockey stick in different directions and at different speeds.

Question

Can you successfully pass as a team?
