

Year 6 Summer 2

Outdoor Adventure and Active Learning

- Create a detailed map of the school/yard listing important features.
- Understand the importance of minor details required for a map.
- Navigate team members to a location.
- Follows navigations effectively leading to an end goal/area.
- Work effectively in teams to complete an objective.
- Show patience, resilience, determination and a can-do attitude during tricky situations.
- Successfully plan an assault course while using team member's roles effectively.
- Understand how to plan an event and successfully realise how to improve on setbacks.
- Participate in an assault course and be able to excel in various activities.
- Successfully develop code breaking and problem solving skills.
- Shows good leadership skills.
- Communicates effectively with team members to complete tasks

Teams must try to make the longest snake possible by connecting skipping ropes/bibs together – only the resource gatherer can collect items and can only collect an item once their items have been used up.

Question
