Sticky Knowledge

Spring 1 Year 2 Explorers

Can you name five physical features?

Cliff, coast, forest, mountain, valley, vegetation and weather.

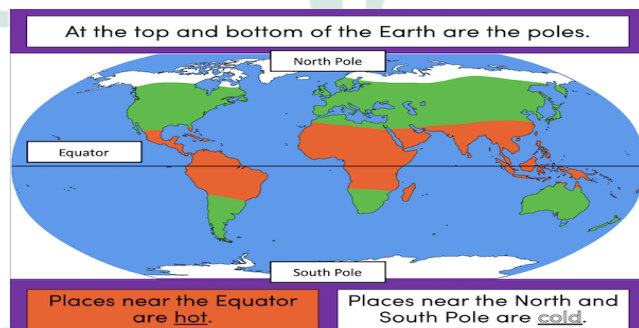

Where are the North and South Poles located?

At the top and bottom of the globe. They are cold and furthest away from the equator.

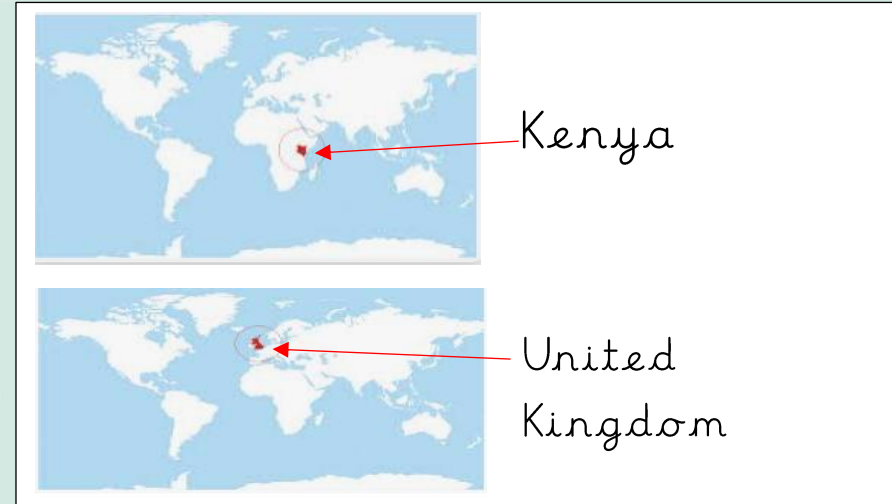

Can you name five human features?

Village, factory, office, port, harbour.

Where is the equator located?

Key Vocabulary

Vocabulary	Definition
Human Feature	City, town, village, factory, farm, house, office, port and shop.
Physical Feature	Beach, cliff, coast, forest, hill, mountain, sea, ocean, river, vegetation, weather.
Continent	A continent is a large solid area of land. Earth has seven continents
Equator	It is an imaginary line around the Earth that goes exactly midway between the North Pole and the South Pole and divides it into two equal halves, the Northern Hemisphere and the Southern Hemisphere.
North Pole and South Pole	The North Pole is at the northernmost point of the Earth, while the South Pole is at the southernmost point on the Earth. The area around the North and South Poles is very cold but the area around the equator is very warm.
